---

My name is Michael C. Maresco. I am currently a Virtual student at University Texas at Austin for Coding/Software Development. I also am a recent Double Bachelors of Science graduate from the recognized Stony Brook University, in New York. I majored in both Business Administration & Biology. With specialties in both Finance and Interdisciplinary Biology. My career goals are to eventually pursue a combined Masters degree in Software Engineering and Business Management. Originally a Pre-Medicine student, I made the jump to Technology after learning my passion for Coding and my obsession with becoming more knowledgeable in this field. I hope this brief supplemental information of my Honors and Occupations help to show I'm not only hardworking, but a well rounded person. I believe with my obsession with structure, passion for teamwork and stride for excellence, that I set myself apart from the rest.

**Education**
